

BAB V

KESIMPULAN DAN SARAN

A. Kesimpulan

Dari hasil-hasil analisis yang diuraikan dalam Bab IV di muka, didapat kesimpulan sebagai berikut :

1. Statistik deskriptif

Pada tahun 2000, rata-rata perolehan proporsi pendapatan *fee based income* Bank Campuran lebih besar dibandingkan dengan rata-rata perolehan proporsi pendapatan *fee based income* pada Bank Umum

2004, rata-rata perolehan proporsi pendapatan *fee based income* Bank Asing lebih besar dibandingkan dengan rata-rata perolehan proporsi pendapatan *fee based income* pada Bank Umum Swasta Nasional Devisa dan Bank Asing.

2. Analisis Pengaruh Pendapatan Provisi, Komisi, Fee (X_1), Pendapatan Transaksi Valuta Asing (X_2), Kenaikkan Surat Berharga serta Pendapatan Lainnya (X_3) terhadap variasi Proporsi Perolehan *Fee Based Income* (Y).

Hasil uji F dan Uji R^2 sebagai berikut :

Pendapatan provisi, komisi, fee (X_1), pendapatan transaksi valuta asing (X_2), kenaikan surat berharga serta pendapatan lainnya (X_3) mempunyai pengaruh yang signifikan terhadap variasi proporsi perolehan *fee based income* (Y) sebesar 0,283 atau 28,3%. Jadi rumusan masalah pertama terjawab dan hipotesis pertama terbukti.

3. Analisis Proporsi Perolehan *Fee Based Income* Antara Kelompok Bank

Terdapat perbedaan proporsi perolehan *fee based income* yang signifikan antara kelompok bank berdasarkan kepemilikan dan status secara keseluruhan. Jadi rumusan masalah kedua terjawab dan hipotesis kedua terbukti.

B. Saran

1. Penelitian berikutnya diharapkan dapat memperluas sampel penelitian tidak hanya terfokus pada tiga kelompok bank saja yaitu Bank Umum Swasta Nasional Devisa, Bank Campuran dan Bank Asing.
2. Penelitian berikutnya diharapkan dapat menjelaskan tentang ada tidaknya perbedaan perolehan *fee based income* antar kelompok bank berdasarkan total aset yang dimiliki (kelompok aset), *go public* dan tidak *go public*, serta devisa dan non devisa.

3. Penelitian ini hanya menghasilkan penelitian dari tiga kelompok bank saja yaitu Bank Umum Swasta Nasional Devisa, Bank Campuran dan Bank Asing, dikarenakan keterbatasan akan data yang tersedia di Direktori Bank Indonesia.
